COLLISION.

Freight and Passenger Trains Come Together.

Both Engines Wrecked.

The westward bound accommodation train of the Missouri Pacific Railway and an eastward bound freight train on the same road collided Thursday eve. about 7 o'clock, at the junction, just south of this city. The freight train was trying to get on the side track, but did not make it in time, or else the passenger train was ahead of time. The conductor of the freight claims that the passenger train was two minutes abead of time, while the conductor of the passenger claims that he was just "on time," and that the freight should have been out of the way on Dan. Adams, John Guthrie, Peter McVicar, the side track.

Both engines were tadly damaged one of them almost wrecked. The baggage car was broken up badly, and some of the passengers in the coaches were bruised, but no bone were broken. Full particulars have not been received, but no doubt the firemen and engineers jumped and saved themselves.

The Topeka Road. The vote in Union Township, Jefferson County, last Tuesday, resulted unfavorably to the Leavenworth, Oskaloosa & Topeka road. Our advices from there lead us to believe that a majority of the people of the township was in favor of giving aid to the road, but owing to the inactivity of the friends of the road, and the activity of the opponents, the bonds were defeated by eleven votes. In order to obtain a full expression of the people, the proposition has again been submitted, and the election will be held on the 1st day of June. The friends of the enterprise should not remain fidle and permit the best interests of the township to be thwarted by designing enemies of the road. The road will be built, and built speedily if the proper aid is given. Jefferson County has a great deal at stake in this issue, and cannot well afford to place herself on record as against the railway system now developing

hundred dollars per year, seventeen hundred dollars a year, thirteen hundred dollars a year. They left the clothiers in diagnst, but after all turned up at John Seckler's. They told John that they could not see how clothiers could make a living, unless they charged enormous prices for the goods they sold. John told them that he was now so situated that he paid no rent. The philosophers looked through John's stock, bought a suit each, and acknowledged that John Seckler had the largest, the finest, the best made up stock in the city, and what is more important than all, he sells them cheaper than they can be bought in New York.

Pine Stock. We are sorry to learn that Messrs. Sprague

His colts are showing remarkably well and selling at high prices. This is not to be wondered at when we consider that he is by the sire of Goldsmith Maid and a host of other good ones, and himself one of the fastest horses in the West. But they still retain his brother, St. Elmo, i. de Island, Membrino Patchen, Comas, Li Arthur, Kansas Boy, and Ethan Alle for use in Kansas and Missouri, Mr. Akers yesterday showed us the finest colt we ever looked at. The Oskaloosa Independent brings the fol lowing intelligence from Jefferson county: "The majority against the bonds in Union township to aid the L. O. & T. Read was eleven. But the friends of the enterprise there are going to have another election at once. The citizens of that township cannot afford to endorse the consequence of a defeat of the proposition, which will most certain ly be disastrous to them for all the future. Osawkee township is fully alive to her interests. She now has a golden opportunity to make a brilliant future, and her citizens are too wise to let it go unimproved. They may rest assured that nothing east of them in this county will be lacking to make the enterprise a success. The root is coming and Osawkee will get it if she votes the bonds. Now is her time: she must not suffer it to pass; and she will not."

Episcopal Convention. The Episcopal Convention of the diocese f Kansas, convened in this city yesterday a o'clock. On Tuesday evening Rev. Mr. Mead, of Atchison, preached a very effective sermon at the Trinity Church. The text on the occasion was, "Lord, increase our faith." After the services, Rt. Rev. Bishop Vail adpersons confirmed. Unhappy Marriages.

Why are there so many unhappy marriages? It is because many enter into that state from unworthy motives, while others have their systems filled with the virus of Scrofula or Syphilis, and this hidden enemy does not always by quiet, but breaks out when least wanted; then the trouble begins with bickerings on one side and remose on the other. This fact is already known to thousands. On this point we shall say no more in this article except to caution those who contemplate marriage with their systems in the above condition to stop. First cleanse yourself of those impurities by the use of the Samaritan's Root and Herb Juices before you bring misery on your offspring. \$1.25 per bottle.

Every year increases the popularity of this valuable Hair Prep-

aration, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic proper-ties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applica-tions, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for ex-cellent quality; and I consider it the BEST PREPARATION for its intended purposes."

CENTLEMEN I—IN ENTERING THE SPRING CAMPAIGN OF 1872, I would most respectfully acknowledge the many favors I have received from my friends and customers of Leavesworth, of Kansas, and of Missouri. Although the business I have done in 1871 has not proved very remunerative to me, my efforts have still been crowned with a large measure of reward, expecting by still larger additions to my customers to accomplish my purpose in the end. Though some may say, "I bought goods cheaper elsewhere," they will please add, also, that "they are indebted to JOHN SECKLER for it," as he forced his neighbors to come down with the prices. I presume everybody knows that Goods, owing to the acarcity of Wool, were ten per cent. higher last fall than in 1870, notwithstanding Clothing was sold last season in Leavenworth at least 15 per cent. cheaper than in 1870. Why? Because I bought heavy and had to sell at low prices in order to close out my Stock. Try all the Clothiers in the city and see whether they will offer you an article as low as I will. OR CHILLS & FEVER.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and personant cure of Ague and Fever, or Chilis and Fever, whether of abort or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cared by a single bottle, with a perfect restoration of the genfor a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued an smaller does for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels for good or der. Should the perfect, however, require a cathartic medicine, after having taken three or foundoes of the table, a single does of RULL'S VEGETABLE FAMILY PILES will be sufficient.
